HUBER CAPITAL ADDS TO ITS SENIOR TEAM

Huber Capital Management is pleased to announce the addition of a seasoned industry veteran to the team. Brenda Cullen joined the team on April 3rd, 2013, as a portfolio manager. Consistent with our stated strategy of adding breadth of talent, her vast industry experience bolsters an already deep and accomplished team of research professionals. Skilled at both investment research and client service, Brenda will serve a dual role in the organization in both a research capacity and as a product specialist.

Prior to joining Huber Capital Management, Brenda served as a Portfolio Manager and Senior Equity Analyst at Delta Asset Management, a division of BMO Global Asset Management, from 2005 to 2012. Prior to Delta, she worked at Hotchkis and Wiley Capital Management from 2000 to 2004, performing both client servicing as well as equity research roles. She received her undergraduate degree from the University of Minnesota and her MBA with a concentration in finance from the University of Southern California, where she was elected to the Beta Gamma Sigma honor society. She is a member of the CFA Institute and the CFA Society of Los Angeles.

Joe Huber, CEO of Huber Capital Management, said, "I have known Brenda for many years and have been trying to recruit her to join the team for quite some time. Having worked directly with her for several years at Hotchkis and Wiley, she is accustomed to our rigorous research process and is expected to have an immediate impact on the portfolios. Her deep value philosophy, strong accounting and financial skills, and a sharp analytical mind are perfectly suited to the research process employed by Huber Capital. In addition, Brenda's background in client service will allow me to transition to her much of my servicing workload, freeing up more time in a research capacity."

We welcome her to our team.
