

HUBER MID CAP VALUE FUND

Investor Class (HUMDX)

Institutional Class (HUMEX)

SUMMARY PROSPECTUS

February 28, 2021

Before you invest, you may want to review the Huber Mid Cap Value Fund's (the "Mid Cap Value Fund" of the "Fund") Statutory Prospectus and Statement of Additional Information ("SAI"), which contain more information about the Fund and its risks. The current Statutory Prospectus and SAI dated February 28, 2021, are incorporated by reference into this Summary Prospectus. You can find the Mid Cap Value Fund's Statutory Prospectus, SAI, reports to shareholders and other information about the Fund online at <http://hubercap.com/content.php?pageid=12&page=matural>. You can also get this information at no cost by calling the Fund toll-free at 888-HUBERCM (888-482-3726) or by sending an e-mail request to FundInfo@hubercap.com.

Investment Objective

The Huber Mid Cap Value Fund (the "Mid Cap Value Fund") seeks to achieve current income and capital appreciation.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy, hold, and sell Investor Class shares and Institutional Class shares of the Mid Cap Value Fund. You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and examples below.

	Investor Class	Institutional Class
SHAREHOLDER FEES (fees paid directly from your investment)		
Redemption Fee (as a percentage of amount redeemed on shares held 60 days or less)	1.00%	1.00%
ANNUAL FUND OPERATING EXPENSES (expenses that you pay each year as a percentage of the value of your investment)		
Management Fees ⁽¹⁾	0.00%	0.00%
Distribution and Service (Rule 12b-1) Fees	0.25%	0.00% ⁽²⁾
Other Expenses (includes Shareholder Servicing Plan Fee)	13.85%	13.80%
Shareholder Servicing Plan Fee	<u>0.15%</u>	<u>0.10%</u>
Total Annual Fund Operating Expenses	14.10%	13.80%
Less: Fee Waiver and Expense Reimbursement ⁽³⁾	<u>-12.69%</u>	<u>-12.69%</u>
Total Annual Fund Operating Expenses After Fee Waiver and Expense Reimbursement ⁽⁴⁾	<u>1.41%</u>	<u>1.11%</u>

⁽¹⁾ Huber Capital Management, LLC (the "Adviser") has voluntarily agreed to reduce the Fund's management fee, from 1.00% to 0.00%, through at least February 28, 2022. The Adviser cannot recoup these amounts.

⁽²⁾ The Mid Cap Value Fund may accrue up to 0.25% in "Distribution and Service (Rule 12b-1) Fees" of the average daily net assets of the Institutional Class shares; however, the Fund's accrual of the fee is currently set at 0.00% through at least February 28, 2022, and any accrual increase must first be approved by the Advisors Series Trust's (the "Trust") Board of Trustees (the "Board").

⁽³⁾ The Adviser has contractually agreed to waive a portion or all of its management fees and pay expenses of the Mid Cap Value Fund to ensure that Total Annual Fund Operating Expenses (excluding AFFE, interest expense, taxes, extraordinary expenses, Rule 12b-1 fees, shareholder servicing fees, and any other class-specific expenses) do not exceed 1.00% of average daily net assets of the Fund (the "Expense Cap"). The Expense Cap will remain in effect through at least February 28, 2022, and may be terminated only by the Trust's Board of Trustees (the "Board"). The Adviser may request recoupment of previously waived fees and paid expenses pursuant to the contract from the Fund for 36 months from the date they were waived and paid, subject to the Expense Cap at the time such amounts were waived or at the time of recoupment, whichever is lower.

⁽⁴⁾ Total Annual Fund Operating Expenses do not correlate to the Ratio of Expenses to Average Net Assets Before Fee Waiver and Expense Reimbursement in the Financial Highlights section of the statutory prospectus, which reflects the actual operating expenses of the Fund and does not include expenses of 0.01% attributed to acquired fund fees and expenses ("AFFE").

Example. This Example is intended to help you compare the cost of investing in the Mid Cap Value Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same (taking into account the Expense Cap only in the first year). Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
Investor Class	\$144	\$2,805	\$5,004	\$8,972
Institutional Class	\$113	\$2,734	\$4,913	\$8,890

Portfolio Turnover. The Mid Cap Value Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund’s performance. During the most recent fiscal year, the Fund’s portfolio turnover rate was 118.94% of the average value of its portfolio.

Principal Investment Strategies

The Mid Cap Value Fund normally invests at least 80% of its net assets (plus borrowings for investment purposes) in common stocks of mid-sized capitalization U.S. companies (“mid cap companies”) whose stocks are considered by the Adviser to be undervalued. The Adviser currently considers mid cap companies to be those with a market capitalization range that is consistent with the market capitalization range of the Bloomberg U.S. 2500[®] Value Index. The market capitalization range of the index changes constantly, but as of January 31, 2021, the market capitalization range of the Bloomberg U.S. 2500[®] Value Index was between \$55.2 million and \$22.7 billion. The Fund also normally invests in stocks with high cash dividends or payout yields relative to the market. While the Mid Cap Value Fund is diversified, the Fund may hold a higher concentration in certain issuers.

The Mid Cap Value Fund may make significant investments in securities of non-U.S. issuers (“foreign securities”), including issuers in emerging markets. The Fund invests primarily in domestic U.S. securities but reserves the right to invest up to 20% of its net assets in American Depositary Receipts (“ADRs”), dollar-denominated foreign securities, or directly in foreign securities. Should appropriate investment opportunities be available, the Fund may invest in initial public offerings (“IPOs”) without limitation. Additionally, the Fund may invest in Rule 144A and other restricted equity securities but not in an amount that exceeds 15% of the Fund’s total assets. From time to time, the Fund may be invested in securities of companies in the same economic sector.

The Adviser employs a value investing style, investing in stocks which, in the Adviser’s opinion, trade at a significant discount to the present value of future cash flows. The Adviser attempts to identify out-of-favor stocks that represent solid fundamental value. The Adviser identifies these investment opportunities by employing a disciplined; bottom-up investment process that emphasizes internally generated fundamental research. The process includes an initial review, in-depth analysis, and employment of the Adviser’s proprietary valuation methodology.

Principal Risks

Losing all or a portion of your investment is a risk of investing in the Mid Cap Value Fund. The following additional risks could affect the value of your investment:

- *Market and Regulatory Risk.* Events in the financial markets and economy may cause volatility and uncertainty and adversely impact a Fund’s performance. Market events may affect a single issuer, industry, sector, or the market as a whole. Traditionally liquid investments may experience periods of diminished liquidity. Governmental and regulatory actions, including tax law changes, may also impair portfolio management and have unexpected or adverse consequences on particular markets, strategies, or investments. The Fund’s investments may decline in value due to factors affecting individual issuers (such as the results of supply and demand), or sectors within the securities markets. The value of a security or other investment also may go up or down due to general market conditions that are not specifically related to a particular issuer, such as real or perceived adverse economic conditions, changes in interest rates or exchange rates, or adverse investor sentiment generally. In addition, unexpected events and their aftermaths, such as the spread of deadly diseases; natural, environmental or man-made disasters; financial, political or social disruptions; terrorism and war; and other tragedies or catastrophes, can cause investor fear and panic, which can adversely affect the economies of many companies, sectors, nations, regions and the market in general, in ways that cannot necessarily be foreseen.
- *Management Risk.* The Mid Cap Value Fund is an actively managed investment portfolio and the Fund relies on the Adviser’s ability to pursue the Fund’s goal. The Adviser applies its investment techniques and risk analyses in making investment decisions for the Fund, but there can be no guarantee that its decisions will produce the desired results.
- *Equity Securities Risk.* The price of equity securities may rise or fall because of economic or political changes or changes in a company’s financial condition, sometimes rapidly or unpredictably. These price movements may result from factors affecting individual companies, sectors or industries selected for the Mid Cap Value Fund’s portfolio or the securities market as a whole, such as changes in economic or political conditions.
- *Mid-Sized Company Risk.* A mid-sized company may be more vulnerable to adverse business or economic events than stocks of larger companies. These stocks present greater risks than securities of larger, more diversified companies.
- *Value Style Investing Risk.* The Mid Cap Value Fund emphasizes a “value” style of investing, which targets undervalued companies with characteristics for improved valuations. This style of investing is subject to the risk that the valuations never improve or that the returns on “value” securities may not move in tandem with the returns on other styles of investing or the stock market in general.
- *Sector Emphasis Risk.* The securities of companies in the same or related businesses, if comprising a significant portion of the Mid Cap Value Fund’s portfolio, could react in some circumstances negatively to market conditions, interest rates and economic, regulatory or fiscal developments and adversely affect the value of the portfolio to a greater extent than if such business comprised a lesser portion of the Fund’s portfolio.
- *Foreign and Emerging Market Securities Risk.* Investments in foreign currencies and foreign issuers are subject to additional risks, including political and economic risks, greater volatility, civil conflicts and war, sanctions or other measures by the United States or other governments, liquidity risks, currency fluctuations, higher transaction costs, delayed settlement, possible foreign controls

on investment, expropriation and nationalization risks, and less stringent investor protection and disclosure standards of foreign markets. Events and evolving conditions in certain economies or markets may alter the risks associated with investments tied to countries or regions that historically were perceived as comparatively stable becoming riskier and more volatile. These risks are magnified in countries in “emerging markets.” Emerging market countries typically have less-established market economies than developed countries and may face greater social, economic, regulatory and political uncertainties. In addition, emerging markets typically present greater illiquidity and price volatility concerns due to smaller or limited local capital markets and greater difficulty in determining market valuations of securities due to limited public information on issuers.

- *ADR Risk.* Investments in ADRs are subject to many of the same risks that are associated with direct investments in foreign securities. In addition, ADRs may not track the price of the underlying foreign securities, and their value may change materially at times when the U.S. markets are not open for trading.
- *Initial Public Offering Risk.* The risk exists that the market value of IPO shares will fluctuate considerably due to factors such as the absence of a prior public market, unseasoned trading, the small number of shares available for trading and limited information about the issuer. The purchase of IPO shares may involve high transaction costs. IPO shares are subject to market risk and liquidity risk. When the Mid Cap Value Fund’s asset base is small, a significant portion of the Fund’s performance could be attributable to investments in IPOs, because such investments would have a magnified impact on the Fund. As the Fund’s assets grow, the effect of the Fund’s investments in IPOs on the Fund’s performance probably will decline, which could reduce the Fund’s performance.
- *Rule 144A Securities Risk.* The market for Rule 144A securities typically is less active than the market for publicly-traded securities. Rule 144A securities carry the risk that the liquidity of these securities may become impaired, making it more difficult for the Mid Cap Value Fund to sell these securities.
- *Focus Risk.* At such times the Mid Cap Value Fund holds the securities of a small number of issuers, it may be more exposed to the risks associated with and developments affecting an individual issuer or a smaller number of issuers than a fund that invests more widely. This may increase the Mid Cap Value Fund’s volatility and cause the performance of a relatively smaller number of issuers to have a greater impact on the Fund’s performance.

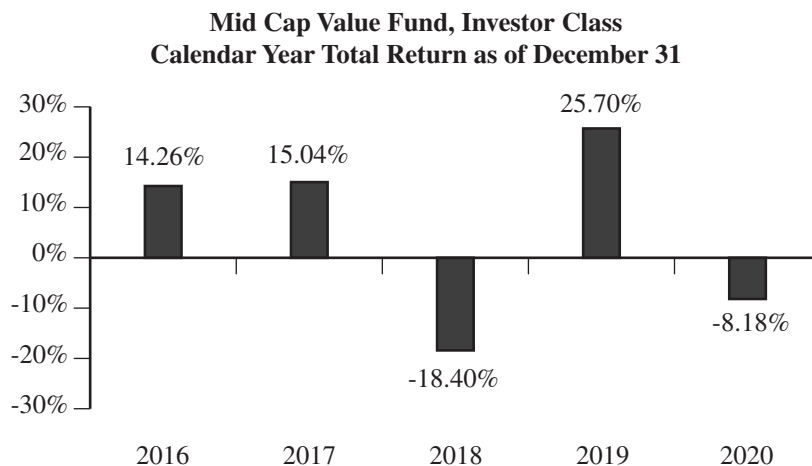

Who May Want to Invest in the Fund?

The Mid Cap Value Fund may be appropriate for investors who:

- Have a long-term investment horizon;
- Want to add an investment with potential for capital appreciation to diversify their investment portfolio; and
- Can accept greater risks of investing in a portfolio with common stock holdings.

Performance

The following performance information indicates some of the risks of investing in the Mid Cap Value Fund. The bar chart shows the annual return for the Fund’s Investor Class from year to year. The table shows how the Fund’s average annual return for the 1-year and since inception periods compares with a broad measure of market performance. The Fund’s past performance, before and after taxes, is not necessarily an indication of how the Fund will perform in the future. Updated performance information is available on the Fund’s website at www.hubercap.com or by calling the Fund toll free at 888-HUBERCM (888-482-3726).

During the period of time shown in the bar chart, the Mid Cap Value Fund’s highest quarterly return was 32.96% for the quarter ended December 31, 2020, and the lowest quarterly return was -34.57% for the quarter ended March 31, 2020.

Average Annual Total Returns

(For the periods ended December 31, 2020)

	<u>1 Year</u>	<u>5 Years</u>	<u>Since Inception (12/31/2015)</u>
Investor Class			
Return Before Taxes	-8.18%	4.36%	4.36%
Return After Taxes on Distributions	-8.33%	4.09%	4.09%
Return After Taxes on Distributions and Sale of Fund Shares	-4.74%	3.34%	3.34%
Institutional Class			
Return Before Taxes	-8.00%	4.59%	4.59%
Bloomberg U.S. 2500[®] Value Index⁽¹⁾ (reflects no deduction for fees, expenses or taxes)	3.47%	8.57%	8.57%
Russell Midcap[®] Value Index (reflects no deduction for fees, expenses or taxes)	4.96%	9.73%	9.73%

⁽¹⁾ The Huber Funds have decided to change their primary benchmarks from the Russell benchmarks to the Bloomberg benchmarks. There will be no investment implications as a result of this change. The new Bloomberg benchmarks offer a more cost-effective solution that is consistent with the management style.

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on your situation and may differ from those shown. Furthermore, the after-tax returns shown are not relevant to those who hold their shares through tax-deferred arrangements such as 401(k) plans or individual retirement accounts (“IRAs”). After-tax returns are shown only for the Investor Class; after-tax returns for the Institutional Class will vary to the extent it has different expenses. The Return After Taxes on Distributions and Sale of Fund Shares is higher than other return figures when a capital loss occurs upon the redemption of Fund shares and provides an assumed tax deduction that benefits the investor.

Management

Investment Adviser. Huber Capital Management, LLC is the Mid Cap Value Fund’s investment adviser.

Portfolio Manager. **Joseph Huber**, Chief Executive Officer and Chief Investment Officer of the Adviser, is primarily responsible for the day-to-day management of the Mid Cap Value Fund’s portfolio. Mr. Huber has managed the Fund since its inception in December 2015.

Purchase and Sale of Fund Shares

You may purchase, exchange or redeem Mid Cap Value Fund shares on any business day by written request via mail (Huber Mid Cap Value Fund, c/o U.S. Bank Global Fund Services, P.O. Box 701, Milwaukee, Wisconsin 53201-0701), by telephone at 888-HUBERCM (888-482-3726), or through a financial intermediary. You may also purchase or redeem Fund shares by wire transfer. Investors who wish to purchase, exchange or redeem Fund shares through a financial intermediary should contact the financial intermediary directly. The minimum initial and subsequent investment amounts are shown below.

Type of Account	To Open Your Account	To Add to Your Account
Investor Class		
Regular	\$5,000	\$100
Retirement Accounts	\$2,500	\$100
Institutional Class	\$1,000,000	\$5,000

Tax Information

The Mid Cap Value Fund’s distributions are taxable, and will be taxed as ordinary income or capital gains, unless you invest through a tax-deferred arrangement, such as a 401(k) plan or an IRA. Distributions on investments made through tax-deferred arrangements may be taxed later upon withdrawal of assets from those accounts.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase Mid Cap Value Fund shares through a broker-dealer or other financial intermediary, the Fund and/or the Adviser may pay the intermediary for the sale of Fund shares and related services. These payments may create conflicts of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary’s website for more information.
